

Rule 21 Working Group Meeting
November 8, 2001

Pacific Gas & Electric
1919 Webster Street
Oakland, CA
Meeting Agenda
9:30 am – 4:00 pm

Morning Session (9:30 am to 12:30 pm)

- Introductions
- Rule 21 Activity
- Updates on CPUC Filings
 - Interconnection fees
 - Standby charges
 - Necessity of Advice Letters for electronic Application
- FERC Interconnection Update – [FERC Notice of Proposed Rulemaking on interconnection](#); uncertainty whether this document covers distribution system interconnection as well as transmission level; question how it relates to IEEE P1547; how to Rule 21.
- Discussion of location of the electronic Application; SCE & SDG&E do not have websites, but will soon; PG&E does and wants the .pdf & .html eApp docs on their site; question whether this approach will lead to non-standard application; issue unresolved, but may be trivial.
- Rule 21 Language Refinement (Continued)
- Completed Consensus process on sections A, B, and H
- Completed consensus process on section F except for a few sections-
 - Dylan S. to draft new language...
- All modifications to sections A, B and F are contained in document [Compilation-v22b-GroupConsensus.doc](#);
- All modification to section H is contained in document [11107Definitions-groupconsensus.doc](#)

- Next Meeting and Location: [Riverside, November 29, 2001](#)
